IIT (ISM) campus is just 2.5 km from Dhanbad railway station where taxis and rickshaws ply round the clock. People arriving by train should exit from the main gate located near the platform No.1 to avail the taxis/rickshaws for local conveyance to the institute.

2. ABOUT M.A. PROGRAMME IN DIGITAL HUMANITIES AND SOCIAL SCIENCES

Over the past few decades, new digital tools have emerged that are now used within various humanities and social science disciplines. The MA Programme in Digital Humanities and Social Sciences will provide a solid grasp of how powerful digital tools can be used to analyse, visualise and research digital media and digitised materials.

This two-year MA programme will integrate computational methods and theories with research and teaching in the Humanities and Social Sciences. It will also focus on studying digital technologies and their impact on various aspects of human culture. This addresses the demand for Humanities and Social Sciences graduates to be able to work both in the realm of humanities and social sciences research and teaching and in the emerging job markets of information management and content delivery over the internet.

2.1 Objectives

The MA in Digital Humanities and Social Sciences program will offer unique opportunities to modulate conventional disciplinary boundaries among the humanities, the social sciences, the arts, and technology. Primary objectives of the program include:

- To contribute to cutting-edge theory and timely intellectual conversations about digital cultures in India and other regions.
- To explore how digital media and digital tools and methods can be used to support humanities and social science work and competencies and broaden their applicability in professional and scholarly settings.
- To explore how computer-driven methods can be used to analyse, visualise and enact humanities and social science inquiries into digital source materials.

- Through hands-on experimentation, trying out various types of digital humanities analysis using heterogeneous datasets, tools, and methods.
- Pursue careers in different fields such as higher education administration, library or cultural heritage organisations, research centres, communication, media and marketing firms, or digital start-ups.
- Pursue advanced research at PhD level.

2.2 Learning Outcomes

The graduates of this programme will be critical thinkers, excellent writers, and experienced communicators. The following are some of the attributes and skills acquired by the students:

- A deep knowledge and appreciation of technology in culture and society.
- An ability to apply critical, theoretical, and technological approaches to societal challenges.
- An understanding of how to use complex real-world data in digital analysis.
- Use of powerful tools and methods to analyse and interpret data and share their findings.
- Writing and presentation skills to convey this information to different audiences.
- Powerful experience with computers & information technology.
- Professional practices, ethical standards & creative approaches to problem solving.
- An ability to work in teams where personal initiative, time management, emotional intelligence and critical thinking are vital.
